

QUELANT®-Minors Minor Nutrients, Major Performance

Quelant-Minors is formulated to deliver a balanced complement of secondary nutrients and micronutrients directly to the plant foliage where it can be readily absorbed and moved to its consumption points. These nutrients are combined with Macro-Sorb's amino acid technology to promote rapid correction and maintenance of nutrient levels.

- ◆ Balanced secondary nutrients and micronutrients combined with Macro-Sorb's L-amino acid technology
- ◆ Formulated for true foliar performance and rapid nutrient absorption
- ◆ Corrects and prevents micronutrient deficiencies in turfgrass and other plants
- ◆ Pharmaceutical grade manufacturing process guarantees consistent ratios of L-amino acids
- ◆ Low proportion of nitrogen will not stimulate unwanted growth
